RA-H122 Datasheet

Description

The RA-H122 "hubble" simplifies the connection of up to two reels to both power and network. Connection to power is via a standard barrel connector. Connection to an off-the-shelf device server is via serial cables with DB9 connectors.

Technical Specifications

Reel Interface

Connector: RJ-45 (x2)

Compatibility: reelyActive reel

Serial Interface

Connector: DB9 (x2)

Compatibility: Neteon GW5501/5502 and Neteon GW315

Physical

Dimensions (LxWxH): 85mm x 55mm x 26mm (excluding flange)
                     111mm x 55mm x 26mm (including flange)

Weight: TBD

Enclosure material: ABS plastic

Enclosure colour: Black

Custom colours: Available with minimum order quantity

Power

Connector: Barrel (2.1mm x 5.5mm centre-positive)

Voltage: 5VDC to 45VDC

Environmental

Temperature: -40C to +85C (Industrial grade)

Outdoor-capable: Yes, with waterproof enclosure (not supplied)

reelyActive
